

Recognizing Professional Achievement Through Advanced Learning

Sponsored by Nycomed Canada Inc., this award specifically recognizes pharmacists who have completed advanced training or education (e.g., Certified Asthma Educator) and have successfully expanded their practice as a result. The Nycomed Magnum Opus Award will raise awareness of the value and availability of advanced training for pharmacists. Pharmacists may be nominated by another individual or they may nominate themselves.

Award Specifications:

One pharmacist from each province will receive the Nycomed Magnum Opus Award. Each winner will receive a trophy and \$1,000 to be donated in his or her name to the pharmacy school alma mater, advanced training program, or disease-based charity of his or her choice.

Winners will be profiled in *Pharmacy Practice* and *Québec Pharmacie* magazines and may be recognized at a provincial awards ceremony.

Eligibility Criteria:

Pharmacists who have completed specialty education or training and who, as a result, have successfully expanded their professional practice, are eligible for this award.

Entries must include:

- evidence of completed specialty education or training (e.g., certification program, post-graduate education)
- a description of how the pharmacist has successfully expanded his or her professional practice as a result of this additional training
- supporting materials: e.g., marketing materials, testimonials from patients and other healthcare providers, data that demonstrate the success of the expanded practice

Submission Process:

Pharmacists are encouraged to submit entries or nominations online at www.canadianhealthcarenetwork.ca/nycomedaward.

Alternatively, you can complete the attached form and send it, along with required supporting documentation, to the appropriate provincial contact listed at right. Please note the deadlines vary by province.
